Copy of the Contractor's GL Policy Copy
of the signed project contract

Site Foreman/ Project Manager's Name: _____

Site Foreman/ Project Manager's Contact Info: _____

Flood is not covered under this policy. Flood includes, but is not limited to: surface water, storm surge, mudflow, and tsunami.

If you carry flood coverage through PURE Flood, NFIP, or a private flood program, you and your broker should discuss any work that includes partial or total demolition of the existing property, property location being moved or square footage extension, or any foundation work as it may impact the flood coverage in place.

REQUIREMENTS FOR ALL CONSTRUCTION PROJECTS:

- Minimum of one ABC-rated, 10lb. fire extinguishers in place per 1,000 square feet of structure with at least one extinguisher on each floor
 - If flammables are used and not removed from job site at the end of each day:
 - A fireproof storage cabinet, approved by Underwriting Laboratories, must be used to store flammables at the end of the workday
 - [Fireproof Storage Cabinet](#)
 - A daily protocol must be in place to ensure proper disposal of any rags used during construction
 - [Oily Rag Disposal](#)
- *If flammables/oily rags are not used or if they are stored off-site, please advise: _____
